

For over 20 years, the Anishinabek First Nations have been working towards the establishment of the Anishinabek Education System (AES). Part of this work included the negotiation of the Anishinabek Nation Education Agreement and funding arrangements with Canada. These negotiations are now completed. We are now moving forward to ratification of the agreements with Canada.

The Proposed Anishinabek Education System:

- is about Anishinabek control over Anishinabek Education;
- is a system of local, regional and central education structures that will support a culture of learning for First Nations students;
- will provide culturally appropriate curriculum for student success;

Ratification Communications Campaign:

Regional and First Nation Community meetings are being held to build Anishinabek First Nation citizens' awareness and knowledge of the Education Agreement and the proposed Anishinabek Education System.

For more information:

- Attend the upcoming education information meetings
- Provide your mailing address to your First Nation to ensure mail-outs reach you
- Visit www.sayyestoaes.ca
