NOTICE

TO MEMBERS OF AAMJIWNAANG WHO ATTENDED INDIAN DAY SCHOOLS

RE: Indian Day School Class Action

Dear Members:

Chief Christopher Plain has been in contact with Gowling WLG (Canada) LLP. They are lawyers handling the class action suit with respect to the Indian Day School. "McLean v Canada is a Class Action lawsuit against the Canadian government for the abuses suffered by students who were forced to attend "Indian Day Schools" across Canada after 1920. This is the first national Class Action seeking compensation for Indian Day School students and their families."

Gowling WLG has agreed to visit Aamjiwnaang for an information meeting. Chief Plain will be providing more information on this meeting as soon as it is available.

If you wish to register for this Class Action database, THE INDIAN DAY SCHOOL CLASS ACTION REGISTRATION FORM must be completed. **The representatives from Gowling WLG, will be able to assist you in filling out the form.**

Watch for updates on this important matter.

RE: Clench Defalcation Specific Claim – Update

In July 2015, the Government of Canada presented Aamjiwnaang and Kettle and Stony Point with a global settlement offer as a means to fully and finally settle the Clench Claim with both communities.

As a condition of the settlement with Canada, Aamjiwnaang and Kettle and Stony Point must agree how the settlement funds will be divided between the two communities, and this agreement must be ratified by both First Nations.

At the end of May, representatives from both communities met in London, Ontario to participate in a structured mediation process in an attempt to reach an agreement on the division of settlement funds.

We are pleased to announce that on Friday, May 31, 2019, Aamjiwnaang and Kettle and Stony Point reached an agreement on the division of settlement funds. Next steps will include developing a final settlement agreement with the Government of Canada, which will then be presented to the membership of both communities for a ratification vote.

We expect the final settlement agreement to be put to the community for approval in the coming months and will keep the community informed as to any further developments.

RESIDENTS OF AAMJIWNAANG

RE: GRASS CUTTING

Dear Members:

As you are aware, we have had an unusual amount of rain for the month of May, and June hasn't been much drier. This makes it difficult for the team of grass cutters to get out and to make matters worse the grass is growing at a much faster rate with all the rain. Concerns have been brought to the attention of myself and Brian Bois regarding this.

Brian Bois and the Public Works crew are doing a great job considering the circumstances.

If you are one of the nearly 70 people on the list to have your yard done, we ask that you have patience. They are working as fast as they can to keep up with the yards, service roads, band building as well preparing our community for the community events this month and we say miigwetch for your understanding.

TO MEMBERS OF AAMJIWNAANG

RE: FISHING ACCESS PERMIT

Dear Members:

On April 17, 2018 Council passed a motion to establish an Access to Fishing Permit. As part of the motion Council committed to revisit the Access to Fishing Permit prior to the 2019 fishing season.

At their meeting held on May 6, 2019 Council reviewed the information provided to them with respect to the 2018 fishing season and passed the following motion with respect to the 2019 Fishing Season:

“That Aamjiwnaang Council acknowledges the Finance Coordinator and Public Works Coordinator joint briefing note with respect to Fishing Permits 2019. Further that, Council is in agreement with Option #3; to eliminate the entire Fishing Permit program and that a Status Card Holder must accompany any non-status member when they are visiting Aamjiwnaang shores to fish.”

Security will continue to take place to monitor and ensure community safety.

There is no parking on the grass and community members and guests are responsible to clean up after themselves. Also, please no parking on the pier.

REYNOLD BIRD

MESSAGE POST

They would advertise these events by posting little notices in every corner of the reserve. There were so many little notes that they seemed like a little bulletin board over there. They'd go and tack it on every corner post. Everybody'd go by they'd see if there was something there. That's how they got around. There was no Indian news at that time. If anybody wanted to know about anything that was happening, they'd just go down to the corner. Sometimes we'd call it the school house corner.

CLARENCE PLAIN

OJIBWE LANGUAGE

I was brought up to talk Indian.

Almost everybody spoke Ojibwe when I was growing up, but still, when you went to school, the school teacher discouraged us from talking Indian in school. I wasn't too pleased with that because that's our language, you know? When we were playing, we were talking Indian, out in the yard. When the teacher used to tell us don't talk Indian that's what she had planned on. That's what she used to tell us. "Don't talk Indian when you're in school." When you were at home ... you spoke Indian. My schooling was all in English! Nobody taught us Chippewa. We already knew that, when I was small. Besides the younger ones, almost everybody, talked Ojibwe. That's the way they communicated.

I would like to tell all the younger kids ... that they should learn the Native language, also that they should talk among themselves, and make plans. The Indian language shouldn't be lost as far as I'm concerned.

Course they were learning the English language too. Well, I guess maybe it was quite the thing, you had two languages to learn.

How will student data and information be used by the Anishinabek Education System and Ontario?

The Data and Information Sharing Agreement signed between the Kinooaadziwin Education Body (KEB) and Ontario indicates that student data and information will only be used to further the objectives of the Master Education Agreement (MEA). Under this agreement, AES student information may be used for the following purposes:

- to support Anishinabek student success and well-being;
- to support continuous improvement in education effectiveness;
- to inform ongoing system and school-level planning;
- to inform priorities for professional learning;
- to prepare public reports in accordance with the Master Education Agreement;
- to support research, as described in the Master Education Agreement;
- to support evaluation and monitoring activities;
- to inform the development of the Multi-Year Action Plan and the Transfer Payment Agreement, as described in the MEA;
- to meet multi-level reporting requirements under the MEA;
- to support activities under the Multi-Year Action Plan; and
- other purposes agreed to in writing by the Parties.

Benefit to Students

- Individual student records will be accessible through the KEB and Ontario.
- Inclusive statistical data will consistently reflect on-reserve and off-reserve students.
- Fluid transition of records for students moving between provincial and Anishinabek education systems.

Benefit to AES Schools and Communities

- Supports the continued development and delivery of quality education programs and services in AES schools.
- Allows communities and schools to capture accurate educational statistics for on and off-reserve students.
- Enables educators to customize professional development and learning.

Benefit to AES/KEB and Ontario

- Assists in identifying needs and priorities of off-reserve AES students in the provincial school system.
- Aides in the development of Education Services Agreements between AES First Nations and Ontario District School Boards.
- Promotes educational research to support student success and well-being.

EDUCATION UPDATE for ANISHINABEK EDUCATION SYSTEM (AES) REGIONAL EDUCATION COUNCIL (REC) #4

June 2019

Boozhoo, Aamjiwnaang Members,

We have recently completed the first year of implementation as a Participating First Nation (PFN) in the self-government agreement for the AES. The following information is presented to the community to keep you updated on the activities that are being worked on by AES/KEB staff. Feel free to meet with our staff to answer questions you may have.

Annual General Meeting (AGM) for KEB

The Kinoomaadziwin Education Body is the board of directors responsible for overseeing the AES. An Annual General Meeting was held on June 10, 2019, at the Quattro Hotel in Sault Ste. Marie, ON. The AGM provide annual updates, a review of the 2018-2019 financial statements, a review of the 2019-2020 budget, and elections for the KEB Board of Directors, among other items.

Participating First Nations for REC#4:

Beausoleil, Chippewas of Rama, Mississaugas of Scugog, Chippewas of Georgina Island, Munsee-Deleware, and Aamjiwnaang

BOARD OF DIRECTOR ELECTIONS

There are three (3) board members for each of the regions. One Director from each REC retired this year, and four directors will be elected to these positions. The current Directors may be re-elected, or new candidates may be elected to the four positions. This year REC#1, motioned to increase their board representation to 4 board members.

Board members for REC #4

Vicki Ware, Aamjiwnaang, Evelyn Ball, Chippewas of Rama, and Greer Atkinson, Chippewas of Georgina Island.

CONFIRMATION OF REC REPRESENTATIVES

The REC Coordinators have been contacting each PFN to confirm the PFN Representatives who sit at the Regional Education Council. Each community is responsible for appointing 1 or 2 community representatives who sit at the Regional Education Council.

Aamjiwnaang Reps for the REC#4 – Janet Steadman and Andrea Grondin

KEB STAFF UPDATES

The position for Information & Data Management Officer will be filled soon. Some of the core responsibilities of this position include implementing the Student Information Management System (PowerSchool), establishing the Aniish Naa Gegii data collection process, and managing all other KEB data and information needs.

Postings for the Niigaan Gdizhaami Fund Coordinator and the Aniish Naa Gegii Coordinator will be ready for distribution as soon as possible.

COMMITTEE UPDATES

Data Research and Evaluation Committee (DREC)

The DREC membership have been working to finalize the Research and Evaluation Logic Model.

This model identifies the progress of relationships over the course of the three-year Multi-Year Action Plan. A final visual is expected to be approved in summer 2019. Other initiatives the committee continues to work on include the New School Registrations, the distribution of OENs, the distribution of AES consent form to PFNs.

Special Education Committee (SEC)

The Special Education Committee meets regularly to continue working on special education priorities. The work plan is currently being reviewed by the JMEAC, and the committee's composition may undergo refinement, pending JMEAC approvals. The KEB special education scans are in the process of being analyzed and a full report of the AES special education landscape will be available soon.

Joint Master Education Agreement Committee (JMEAC)

JMEAC continues to meet every other month. Its focus is ensuring the ongoing implementation of the Multi-Year Action Plan and overseeing the work plans of the other committees. JMEAC is currently conducting its annual review of committee work plans and preparing a quarterly report for the period January 1-March 31, 2019.

POWERSCHOOL

Progress continues the implementation of PowerSchool. Three communities are in the final stages of transitioning to the new student information system (Pic Mobert, Georgina Island and Aamjiwnaang). The remaining schools (13) will complete their transition at the end of June, which will alleviate the difficulty of transitioning during the active school year.

LANGUAGE STRATEGY

The AES language strategy is in development. An eight-pronged approach to the strategy will be reviewed with each REC and feedback will be collected. The regional reviews and feedback will help guide the development of the draft language strategy.

In April 2019, the KEB had the opportunity to meet with Maori language experts from New Zealand. The meeting was very informative and allowed the KEB to identify strengths and opportunities for the AES language strategy.

EARLY DEVELOPMENT INSTRUMENT (EDI)

Eleven AES schools with Kindergarten programs are currently working with the KEB and the Offord Centre for Child Studies, to complete the EDI implementation. Early Development Instrument questionnaires have been sent to each school, and teachers are now in the process of completing the surveys for their SK students. The EDI questionnaires will allow schools and the AES to assess the development of kindergarten students in five different areas of development. The results could assist in identifying, developing, and providing programs and services that target key areas of need.

CONSENT FORMS

The AES student information consent forms have been distributed to each PFN. Final packages were sent in the mail between March 27 and April 12. Communities are now preparing the packages for distribution to PFN students/parents both on-reserve and off-reserve. Door prize is a Fitbit.

A Day in the Life of a Surface Water Evaluator

Ron Griffith & Scott Abernethy (back)
sampling aquatic life in Lake Erie sediment

The Ministry of the Environment, Conservation and Parks has technical specialists to support the ministry in protecting the environment. Five surface water specialists in Southwest region provide support for Windsor-Essex, Chatham-Kent, Sarnia-Lambton, Huron-Bruce, Grey, Elgin-Middlesex, Oxford and Perth Counties.

Scott Abernethy located in the London Regional office has some thoughts on the type of work he may be involved with as a surface water specialist.

The ministry regulates the fair sharing of water in the province and one of Scott's primary tasks is to review permit to take water applications. "I review the details of applications and the amount of water that will be taken from a surface water source, including lakes and rivers, and make sure they are meeting the principles of the program and not causing environmental or ecological harm" says Scott. "I also review these applications to determine if there will be impacts to surface water. If so, I can restrict water taking permits to protect water."

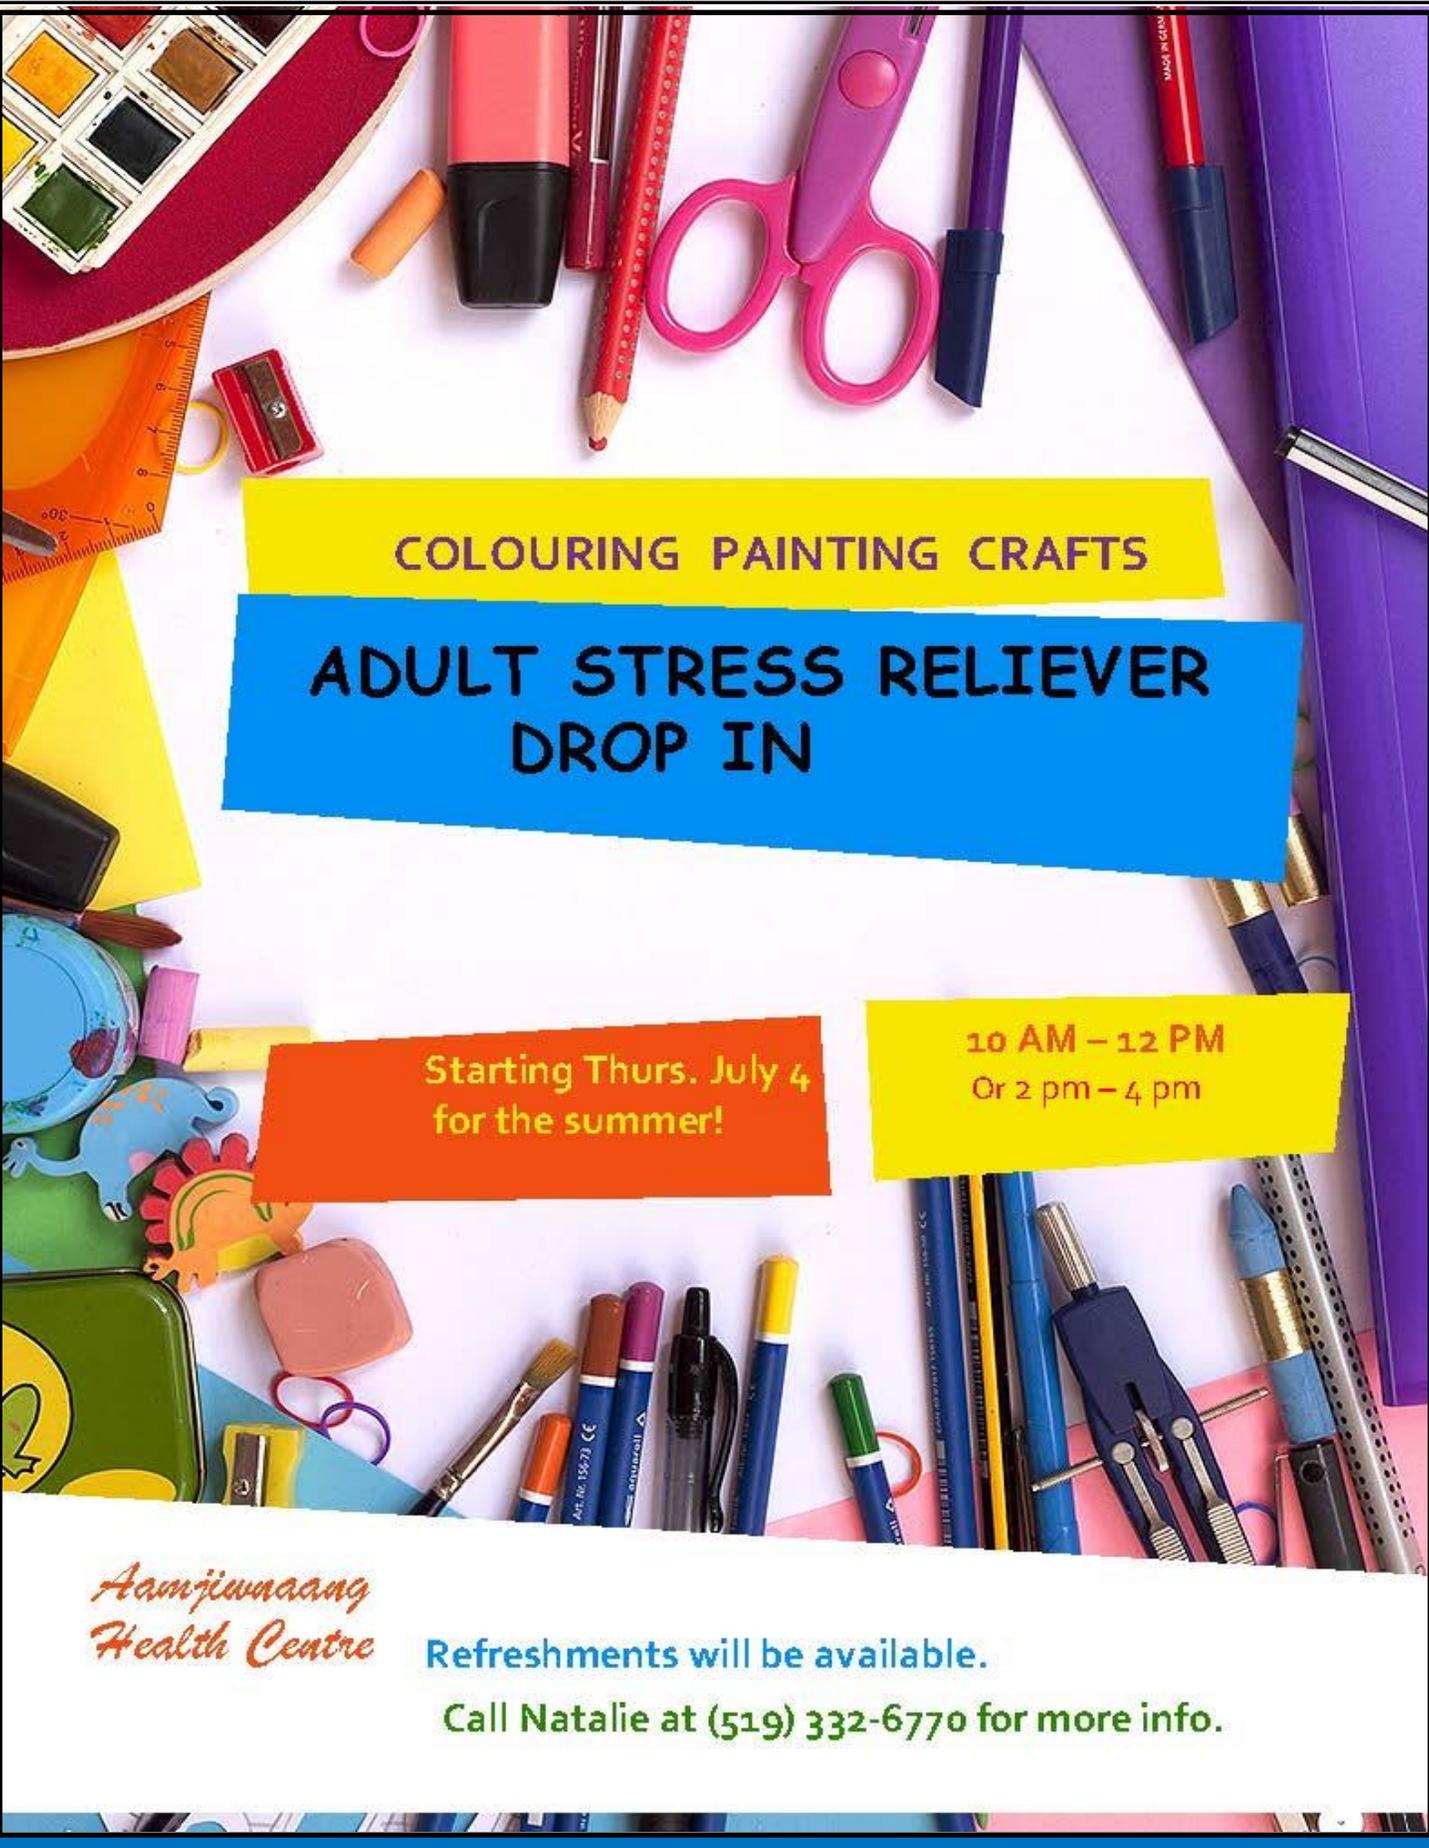

"I also review sewage work applications to assess if discharges from a company to any surface water would harm aquatic life or the quality of water" says Scott. "We can also do our own water quality monitoring to verify a report or application provided by a company."

The role of a surface water specialist includes supporting the ministry's local Environmental Officers here in Sarnia. They bring knowledge and experience when they review water quality test results and potential impacts from industrial or agricultural activities and spills. They also provide expertise in investigations for spills, which may lead to convictions in a provincial court.

Over the past two years, Scott has been involved in a partnership with University of Toronto researchers to sample and analyze sediment, plants and zebra mussels for mercury contamination in the St. Clair River for two seasons. Using a ministry boat, the crew sampled from the Bluewater Bridge to Lake St. Clair. "It is important that we conduct water quality surveys in the region to understand the general health of lakes, streams and rivers and track any changes over time. Those changes may be improvements or a decline in surface water quality that may need to be addressed."

Reports on the progress of the remedial action plan for the St. Clair River show there is a trend of improved water quality and habitat. For more information on the St. Clair River action plan you can check out the Friends of the St. Clair River website at <https://www.friendsofstclair.ca/www/index.html>

Surface water specialists are also involved with the ministry's Environment Plan to protect water quality. Actions in the plan include continued efforts to protect water quality and ecosystems of the Great Lakes. For example, the Canada-Ontario Lake Erie Action Plan has more than 120 actions to reduce phosphorous loadings and algal blooms and commits to restoring natural wetlands.

For most kids, summer is a time for freedom and fun, but for some children it can mean struggling with hunger. When school winds down for summer so do the breakfast and lunch programs that ensure those kids that live with food insecurity get the food they need.

The Inn of The Good Shepherd child hunger reduction program, After the Bell: *Snack Packs* provides kids experiencing food insecurity with packs of kid friendly, kid-sized snacks & fresh fruit.

The packs will be handed out during Mobile Market. Please see Mobile Market schedule provided on the front page for locations, dates and times. First come first served while supplies last.

Thank You

Re: Butler's Garter Snake "Educational Workshop"

VIP Rail is a rail switching and loading facility located in the heart of Sarnia. In 2013, wVIP Rail completed an Environmental Impact Assessment (EIA) as part of a proposal to expand its east rail yard. Studies completed in support of the EIA determined that the endangered butler's garter snake (*Thamnophis butleri*) was present at the proposed rail expansion site.

Butler's garter snake is listed as endangered under Ontario's Endangered Species Act (ESA); as a result, these snakes and their habitat are protected by law. Where impacts to protected species and their habitats are unavoidable, a permit under the ESA is required.

The expansion of the east rail yard displaced 1.2 hectares of butler's garter snake habitat, therefore VIP Rail applied for, and received, a permit under the ESA. In accordance with the permit VIP Rail created 0.8 hectares of new habitat for the species and enhanced another 1.6 hectares of existing habitat to improve conditions for butler's garter snake. The habitat creation and enhancement activities were initiated in 2017. In support of the habitat enhancement site a program for managing invasive species which could negatively affect the snake's ecosystem was implemented, while the habitat creation was reseeded with native grasses. VIP Rail also created live birthing sites to support reproduction and special basking sites where snakes can naturally regulate their temperature at each of the enhancement and creation site.

In accordance with the permit, VIP Rail is required to maintain the habitats until 2026 which includes ongoing removal of invasive plant species or other plant species which could negatively impact the success of butler's garter snake. VIP Rail has also committed to monitor the habitats until 2026 for butler's garter snake use as a mechanism to evaluate effectiveness of the habitats. VIP Rail will be holding an educational workshop to improve public awareness around butler's garter snake protection and recovery. The workshop will be done in partnership with the Aamjiwnaang First Nation's Species at Risk Program and will be taking place on

Friday June 28, 2019 from 08:00 till 12:00
