REMINDER NOTICE

A Special Council Meeting was held the morning of Monday, July 22 in Council Chambers to discuss community concerns. From that discussion, a motion was passed by Chief and Council, putting a moratorium on community business development. Local utility companies have been notified and will contact us for approval in the event that there are requests for connections. This applies to both home and business connections with only pre-approved builds receiving approval. The moratorium will be lifted once protocol is developed and community input is received.

Miigwetch

Chief and Council
