RAPID TEST KIT PICK UP

DRIVE-BY PICK UP

At Maawn Doosh Gumig
Monday, January 31st
12:00 pm while supplies last
One kit per household

Moving forward we will have a limited supply at the Health Centre for people who need them

WHEN CAN A RAPID TEST BE USED?

- When you or someone in your household has symptoms and you need to get back to work or school
- When you are a close contact of someone with COVID, a positive rapid test will allow you to isolate sooner and notify your close contacts

When you are a close contact of someone with COVID and you develop symptoms, you can assume you have COVID and do not need to confirm with a test.

LIMITATIONS – rapid tests are less sensitive than a PCR test, they only pick up infection during a short period of time and there is a risk that you have COVID, but the test is negative. Use with caution. In most cases the PCR test is a better option.

85% VACCINE CAMPAIGN DRAW

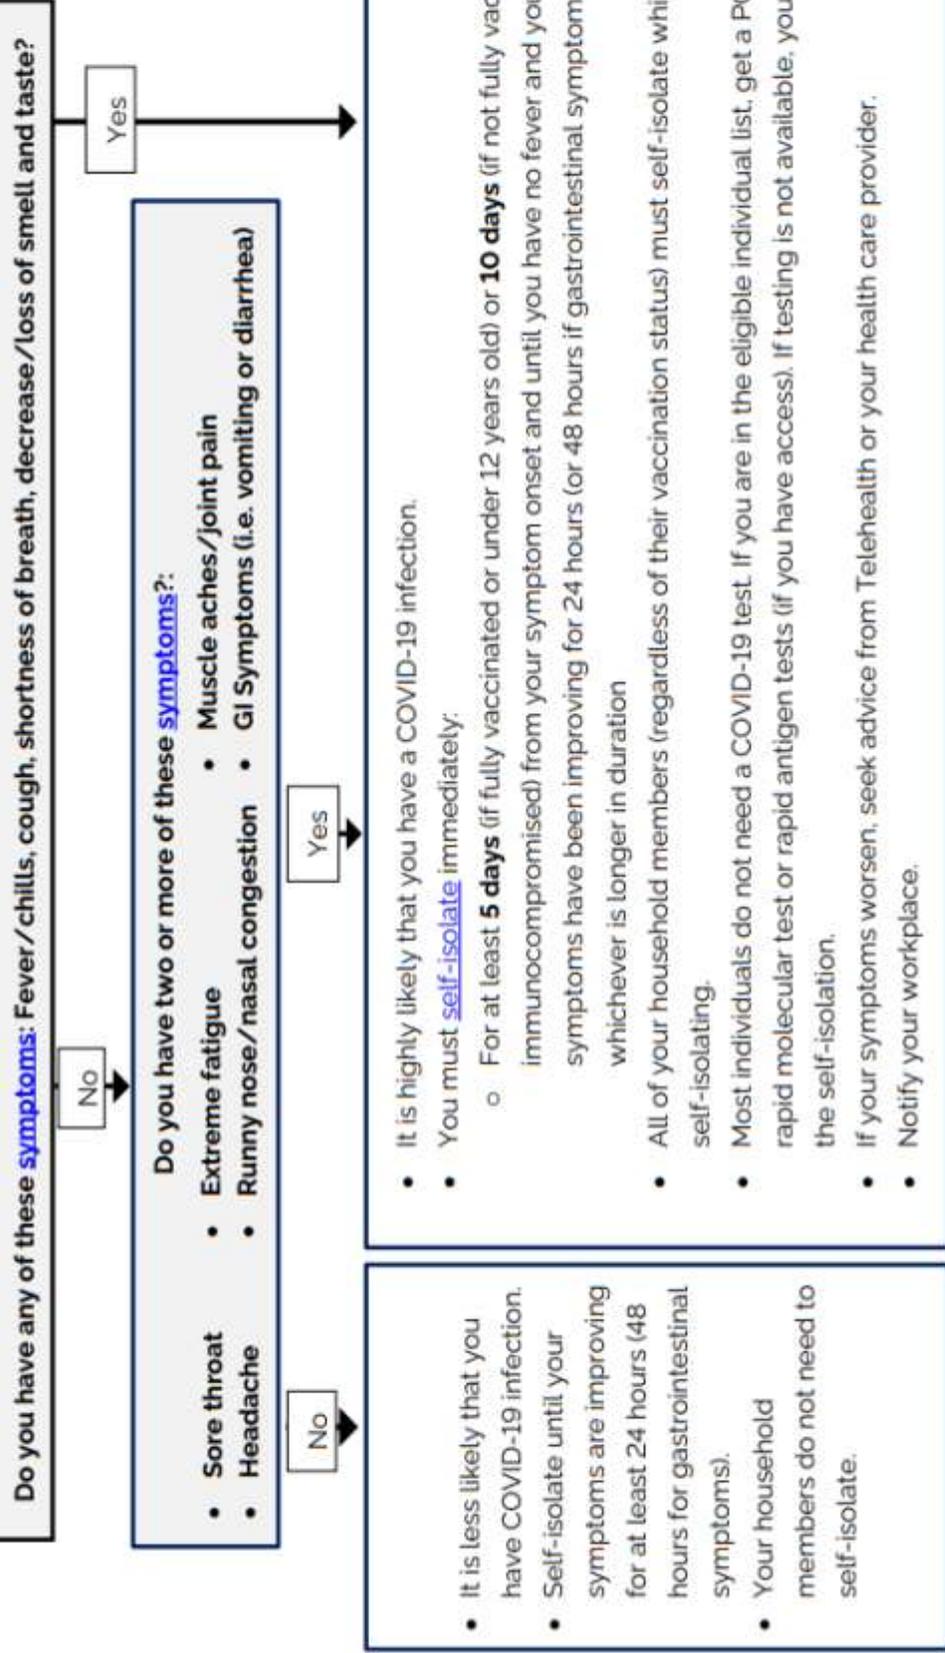

Fill out this ballot for a chance to win some great prizes once we reach our goal! Open to Aamjiwnaang community members. You may use this ballot for your household. We will enter each name into the draw. Please submit to the Health Centre.
